VANISHING SPECIES

DAYTIME ON THE SERENGETI

MOONLIGHT ON THE SERENGETI

ELEPHANT MONUMENT

Shows possible extinction date of 2020.
 There are about 150,00 African Elephants left in existence.
 We are losing over 30,000 a year to poachers.
 We give all profits from the sale of elephant shirts to the Elephant crisis Fund. They monitor and track elephants with drones, planes, and patrols so they can stop the poachers.
 For more info on shirts you can go to ArtForAllAnimals.com or you can call EreK Stone at 806-790-7282.

SUNSET ON THE SERENGETI

BABY BONOBO

Hand inked and hand painted eyes. Profits from the shirts are donated to Friends of The Bonobos, an organization that supports the only Bonobo sanctuary in the Congo. Due to hunting there are only 10,000 Bonobos left in The Congo.
 For more info on shirts you can go to ArtForAllAnimals.com or you can call EreK Stone at 806-790-7282

GREVY'S ZEBRA

The moon and the stars and the sunset are all hand painted making each shirt unique.
 The Grevy's Zebra is the largest of the zebra species and also the most endangered. There are only 2,500 Grevy's Zebras left in existence.
 Profits are donated to The Grevy's Zebra Trust, which is part of the Wildlife Conservation Network
 For more info on shirts you can go to ArtForAllAnimals.com or you can call EreK Stone at 806-790-7282

BACK OF GREEN GECKO

The Tokay Gecko is a threatend species in Southeast Asia due to hunting and poaching for use in traditional Chinese medicine.

We could not locate a fund to help the Tokay Gecko so we donate the profits from all lizard shirts to the Green Iguana Project in San Ignacio, Belize.

SEA TURTLES

Due to predators, pollution, and getting caught in fishing nets, only one in one thousand sea turtles reach adulthood. All profits are donated to The ARK Rehabilitation Center in Port Aransas, Texas.

They care for injured sea turtles and other marine creatures.

Their facility was completely destroyed by Hurricane Harvey so profits go to help them rebuild.
